

MAP Protein Trays

Our Modified Atmosphere Packaging (MAP) tray is a PET tray with a polyethylene (PE) layer to create a perfect seal with our top lidding PE films. Ideal for fresh red or white meats and seafood to extend shelf-life, reduce leakages and avoid food waste.

TECHNICAL DATA

Applications

- PET/PE trays are ideal for applications such as: fresh poultry, beef, lamb, veal, smoked and processed meats, seafood, dairy, and alternative proteins.

Characterises

- Crystal clear presentation for shelf appeal
- High barrier properties
- Available in a range of sizes with a clear finish, with the option for certified NIR black

Sustainability

- Kerbside recyclable

Compliance

Complies with the strictest food safety regulations, meeting:

- AS 2070-1999
- EU No 10/2011
- FDA 21 CFR 175.300
- Kerbside recyclable

Note:

Recommended storage requirements: Store in clean, dry conditions out of direct sunlight and below 40°C.

FEATURES & BENEFITS

Processors

- Available in a range of sizes
- Outstanding top seal integrity
- Minimises downtime and boosts line efficiency
- Engineered for high speeds, including A/B stacking and denesting, machine handling and boxing operations

Tray & Film Packaging Solution

- Combine our PET tray with our PE lidding film to create the perfect packaging solution. Engineered to securely seal and offer robust product protection.

End User Experience

- Crystal clear presentation for shelf appeal
- Improved overall presentation
- Prevent food waste while reducing your environmental footprint by using recycled packaging
- Prolonged shelf life
- Low haze lidding film
- High anti-fog properties
- 100% recyclable
