

READY MEAL PACKAGING SOLUTIONS CPET & PP TRAYS

When it comes to ready meal packaging, your choice of material matters.

Multisteps' CPET Ready Meal Trays deliver real versatility - performing from freezer to oven or microwave - while offering APCO approved kerbside recyclability and a glossy finish that enhances presentation.

For processors choosing Polypropylene (PP) trays, we provide durable options engineered for freezer-to-microwave ready-to-heat and ready-to-eat applications.

Whatever your production environment, we provide a solution that keeps meals safe, fresh, and looking their best - helping you reduce downtime, protect product quality, and deliver consistent results at scale.

FEATURES & BENEFITS

- Customise your offerings and choose from a range of sizes and tray configurations
- Reduces downtime and increases line efficiency
- Engineered for high speeds, including A/B stacking and denesting, machine handling and packing operations

With Multisteps trays and matched lidding film, you get a complete, ready-to-use packaging solution from a single supplier.

TECHNICAL DATA

Applications
