

VSP PROTEIN TRAYS

Our Vacuum Skin Packaging (VSP) constructed from PET/PE, is the perfect solution for preserving fresh red or white meats, seafood, and cheese. It effectively extends shelf life, minimises leaks, and prevents food wastage, making it an excellent choice for food preservation needs.

FEATURES & BENEFITS

PROCESSORS

- Minimises downtime and boosts line efficiency
- Engineered for high speeds, including A/B stacking and denesting, machine handling and boxing operations
- High-integrity top seal for leak control.
- Eliminates the need for absorbent pads
- Maximised food protection and safety
- Available in a range of sizes
- Ideal replacement for foam trays (polystyrene / EPS) or PP trays (polypropylene).

PRODUCT INTEGRITY

- Combine our PET tray with our VSP lidding film to create the perfect packaging solution. Engineered to securely seal and offer robust product protection.

END USER EXPERIENCE

- Clear presentation for shelf appeal
- Improved overall presentation
- Prevent food waste while reducing your environmental footprint by using recycled packaging
- Prolonged shelf life
- Retains food quality and taste
- Easy open lidding film
- Kerbside recyclable
